A digital skills development workshop is being organized by the IEEE Student Branch – SIRCRRCOE Student Branch for the IEEE members, with the objective of helping them learn essential digital tools required for IEEE activities, academic work, and professional development. This workshop focuses on providing hands-on training in tools used for poster designing, form creation, document preparation, presentation making, and data management to improve productivity and efficiency in organizing IEEE events.

“IEEE Digi Tools Workshop – Empowering Digital Skills”

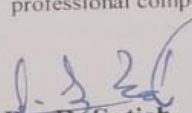

Event Details:

Date: 14th February, 2026

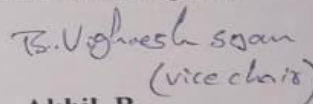

Time: From 07:00 PM onwards

Mode: Online

This initiative aims to enhance the digital skills of Ex Com members and enable them to effectively contribute to IEEE activities, manage event-related tasks, and develop professional competencies required for their academic and career growth.

VISION OF THE DEPARTMENT

To be a premier department that nurtures individuals for acquisition of knowledge with research orientation which suits the local and global needs of industry and society in the field of Electronics and Communication Engineering

MISSION OF DEPARTMENT

- M1. To impart quality education and encourage research with an emphasis on application and innovation
- M2. To cater to the emerging societal needs through all-round development of students
- M3. To enable individuals, face the global competition
- M4. To inculcate the importance of ethical and moral Values in students.

Digi Tools Workshop for ExCom Members Organized by IEEE Student Branch

Introduction

The IEEE Student Branch of our college successfully organized an online “Digi Tools Workshop” for the Second-Year Executive Committee (ExCom) members. The session was conducted by the Third-Year ExCom members as part of an internal knowledge-sharing and leadership transition initiative.

Objective of the Workshop

The primary objective of the workshop was to equip second-year ExCom members with essential digital tools and management techniques required for the effective planning and execution of IEEE activities. The session aimed to ensure systematic documentation, efficient communication, and professional event management.

Session Details

During the workshop, participants were introduced to various digital tools commonly used in organizing IEEE events, including:

Google Workspace for documentation, data collection, and report preparation

Canva for designing posters, certificates, and promotional materials

Task management platforms for assigning responsibilities and tracking progress

Online meeting platforms for conducting webinars and official meetings

IEEE reporting procedures to maintain proper event documentation standards

The third-year ExCom members demonstrated the practical usage of these tools and shared their experiences in managing successful IEEE events.

Key Outcomes

The workshop enhanced the digital skills, coordination abilities, and organizational confidence of the second-year ExCom members. It ensured clarity in roles and responsibilities and promoted structured workflow management within the branch.

Conclusion

The session concluded with an interactive Q&A segment, where participants clarified their doubts regarding event planning, reporting, and team coordination. The Digi Tools Workshop proved to be a valuable initiative in strengthening teamwork, leadership, and digital efficiency within the **IEEE Student Branch**.
